🤖 How Your App (AlgoVisa) Can Be Different & Disruptive

Feature	Market Leaders	AlgoVisa Advantage
🌍 Global coverage	Usually U.S.- or country-specific	Covers multiple destinations + passport origins + travel purposes
💡 Visa discovery	Often manual or based on PDFs	AI-powered visa matcher: user enters nationality, destination, purpose → shows best-fit visa types
📋 Dynamic checklists	Static PDFs or forms	Interactive, AI-generated checklists customized to the user
📅 Timeline prediction	Not provided	AlgoVisa estimates processing times based on recent data + visa type
✍️ Document drafting	Manual or human-reviewed	Auto-generate cover letters, sponsor letters, invitations with GPT
❓ "Can I go here if I have X visa?"	Never answered	Smart eligibility checker for multi-country trips
🧭 Zero sales pitch	Most try to upsell consultants	AI-only, consultant-free experience — *fast, no upsell, no spam*
🧠 Planning logic	Not available	AlgoVisa thinks for the user — "If you want to go to Spain to study, these 3 routes exist. Here's the best one based on your goals."
